DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. **Claims 1-27** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. It is not clear what is meant by the phrase "...session which is actively being transmitted over the mutual data communications connection..." because according to the traffic limiting feature packets are being transmitted over the mutual data communications connection.

4. The use of the phrase "the header-field properties" in the independent claims lacks antecedent basis. The use of a phrase similar to "...based on at least one header-field property..." would cure the antecedent basis deficiency.

5. It is not clear what is meant by the reception of a message, by a connection-formation system, from the signaling connection, since information is transmitted over connections.

6. For **claims 26-27**, it is not clear if it is the same device or a different device that is being configured to provide the claimed functionality.

Allowable Subject Matter

7. **Claims 1, 12 and 24** would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
